XBR-55X930D

55" class (54.5" diag) HDR 4K Ultra HD TV

Enjoy 4K¹ and HDR entertainment on our X930D with Android™ TV³. Featuring three times the brightness range, enjoy breathtaking brightness and detailed black levels. With the ingenious Slim Backlight Drive™, this television offers brilliant picture quality in a super thin design.

Bullets

- The brilliant contrast, color and detail of 4K HDR
- Stunning contrast in a slim profile with Slim Backlight Drive™
- Three times the brightness range with X-tended Dynamic Range™ PRO²
- Colors come alive thanks to the TRILUMINOS® Display
- 4k magic added into every scene with the 4K Processor X1
- Android™ TV with Google Cast™, voice search & Play Store apps³
- Lifelike motion with Motionflow™ XR 960
- Mounts close to your wall like a picture frame
- Gold accents add elegance to the thin design
- Just say what you want with Voice Search³
- Send entertainment from your smartphone to you TV with Google Cast™³
- Enjoy thousands of apps from Google Play™³
- Home automation controlled directly from your TV

Features

Amazing contrast, incredibly slim

Our innovative Slim Backlight Drive™ cleverly guides light to where it's needed most on screen. You'll enjoy the best of both worlds: the most dramatic black levels and brightness in an ultra slim TV.

Uncover the detail with 4K HDR

A High Dynamic Range (HDR)-compatible TV will change the way you look at TV. Combined with 4K Ultra HD resolution¹, HDR video content delivers exceptional detail, color and contrast, with a far wider range of brightness than other video formats. The result is the most lifelike picture TVs have ever been able to create, with brilliant highlights and fine detail.

Capturing the full range of dark and light

By precisely balancing the light output across the screen, dimming some areas and boosting others, X-tended Dynamic Range™ PRO reveals a brightness range three times that of a conventional LED-backlit TV². When combined with an HDR signal you'll experience even greater brilliance in every scene as it increases the quality of HDR with finely-graduated bands of color and more vibrant hues.

More colors, depth and realism

Colors are as rich and vivid as nature's own thanks to the TRILUMINOS® Display with more shades of red, green and blue than ever before. You'll enjoy vibrant, authentic images that evoke the emotion in every scene. When combined with HDR video, TRILUMINOS® Display further increases the color depth for noticeably brighter and more realistic colors.

Adding 4K magic into every scene

SONY

The 4K Processor X1 ensures everything you watch - movies, sports, and streaming video – looks the best it possibly can. Color, contrast and clarity are all optimized based on what you are watching.

Every scene looks more realistic.

Discover a thrilling world of extraordinary clarity. Every single pixel is enhanced beautifully by our most powerful 4K picture processing technology ever. Individual parts of each scene are analyzed and matched with a special image database that independently addresses texture, contrast, color, and edges. The difference is clear with supremely lifelike detail, no matter what you're watching.

Hangs like a picture

With uncompromising pictures and a super slim design, it upgrades your living room and demands to be admired. Mount it close on the wall like a picture frame, while the flush finish with no raised bezel provides a near invisible edge. The gold inlay accent stripe adds a level of sophistication to your room.

Motionflow™ keeps the action smooth

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.

A world of possibilities

Find all the entertainment you can dream of, faster than ever. From movies and TV shows to thousands of apps, Sony's Android™ TV brings you everything in an instant³

Just say what you want

Spend less time browsing, and more time watching. Voice search on Android TV™ provides you with the power of Google search, allowing you to find content across different services without the hassle of time-consuming text entry³

Send to a bigger, better screen with Google Cast™

Send movies and music from your smartphone to your TV with Google Cast™. Use your phone as a remote control³

Your favorite apps, on your TV

Enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Amazon Video, Hulu, Pandora and more. Also, play your favorite Android™ games on the big screen³

Smart home automation

Beyond streaming content, Sony's Android™ TV platform allows Home Automation control directly from the TV, via the Logitech Harmony Hub. IoT (internet of things) devices such as lights, thermostats, Blu-ray™ players, security cameras other home entertainment devices can be controlled and automated via the push of a button on the TV's remote.

Find everything fast

The unobtrusive content bar quickly lets you find the movie, TV show or video you're looking for. Call up the Content bar and you can keep watching, while you scan through live TV, videos on demand, downloaded TV shows and much more. You can even customize the content bar to show you the content you go to most often first.

Stream PlayStation® games straight to your TV

Play selected PlayStation® 3 games directly through your TV – no console required. PlayStation™ Now brings streaming technology to the immersive world of PlayStation® gaming. Just pair a DUALSHOCK®4 controller with the TV and you're ready to play with the same speed and responsiveness as a console.

A masterpiece of design

Keep wires out of sight, thanks to a hidden cable panel structure, for a clean look.

1. 3,840 x 2,160 pixels.

2. Compared to standard LED HDTVs.

3. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11n home network (802.11n recommended). Network services, content, and the operating system and software of this Product may be subject to individual terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

4. Requires compatible devices connected to the same network. Google Cast requires mobile devices with Android 2.3 or higher, or iOS 6.0 or higher and Chromecast application. Google Play using Android TV Remote Control application requires Android 4.0 or higher; not available for iOS. Voice Search is available using the included remote control, Android TV Remote Control application with Android 4.0 or higher, or using Sony's TV SideView application available for Android 4.0.3 or higher or iOS 7.0 or higher.

5. PlayStation™ Now service requires DUALSHOCK®4 controller, sold separately, and 5Mbps Internet connection (5-12 Mbps recommended for the best quality experience). Additional purchases and registration required; service not available in all areas. See us.playstation.com/PlayStationNow for details.

6. Requires HDR compatible content from supported streaming services, such as Amazon Video.

7. Logitech Harmony Hub sold separately. Requires all compatible devices connected to the same network. Refer to Logitech for details on compatible devices. Compatible IP cameras require direct connection to the TV via Wi-Fi.

SONY

XBR-65X900C

65" class (64.5" diag) 4K Ultra HD TV

Behold the beauty of 4K clarity and brilliant color in our thinnest TV ever. See colors come alive with TRILUMINOS™ + X1 technology, while the TruView display produces real-world clarity at any viewing angle. Add the power of Android TV and it's a television that's as smart as it is beautiful.

Bullets

- HD is upscaled to impressive 4K Ultra HD^{1,2}
- Streaming 4K Ultra HD is enhanced for improved clarity^{2,3}
- More color, depth and realism with TRILUMINOS + X1
- TruView display – real world clarity with wide viewing angles.
- Android TV with Google Cast™, voice search & Google Play™ apps^{3,4}
- HDR compatible for next-level color and contrast^{3,6}
- Vanishing Edge™ screen shows all picture with no bezel
- Stream PS3™ games directly to your TV⁵
- Precise motion clarity with Motionflow™ XR 960
- Android gaming on the big screen³
- Just say what you want using voice search^{3,4}
- Personal recommendations from Google Play™³
- Skip the menu and access the top video services fast

Features

Leading 4K picture quality

Experience matters. Sony launched expanded color in 2013, expanded brightness range in 2014, and has been upscaling to 4K for over 10 years. As other manufacturers start implementing these capabilities, Sony takes another step forward improving color accuracy and clarity of HD and 4K video in the X900C.

See the difference experience makes.

More color, depth and realism

All the colors you dream of can now be seen on your Sony TV with TRILUMOS™ + X1 technology. Colors come alive on the screen in the widest color range ever, and dynamic color correction ensures colors are as consistent and accurate as possible every single time.

Real world clarity at any angle.

It's like looking out a window. The TruView display ensures you get consistently clear and bright images with realistic detail and true colors at all viewing angles.

Upscale everything you watch to 4K Ultra HD

Whatever you're watching, watch it in 4K. All of your existing HD sports, TV shows and movies are upscaled to super clear 4K quality². Our most advanced 4K X-Reality™ PRO upscaling is developed from Sony's 10+ years of experience upscaling to 4K, exceeding all other TV brands.

A smarter TV

SONY

So much more than just 'Smart TV,' Android TV™ delivers great content, streaming apps and Android™ games to your TV. Voice search and personalized recommendations make for effortless entertainment^{3,4}.

Ultra-thin

At just under 0.2 inches thin, the top of this TV is thinner than your smartphone, your #2 pencil, and your triple-blade razor. It's also the thinnest LED TV out there.

Amazingly bright. Accurately dark.

A huge step forward in 4K Ultra HD picture quality, High Dynamic Range (HDR) reproduces a wider range of brightness levels than conventional video, bringing greater color and contrast to the screen^{3,6}. It's a picture that much closer to reality.

4K streaming at its best

For those who desire the best 4K streaming experience, Sony 4K TVs are specifically engineered to recognize and improve 4K streaming video². 4K Streaming services like Netflix and Amazon Instant Video offer expansive libraries of movies and original TV series in 4K Ultra HD with ultimate convenience³.

Vanishing Edge™ screen

Finally, a TV that fills the screen to the very edge, so all you see is a picture that seemingly floats before your eyes. The bezel-free edge is so thin that it practically vanishes while you watch, leaving only a stunning 4K picture from our thinnest TV ever.

More apps

The things you love doing on your tablet or smartphone can now be enjoyed on your TV. Log into your Google account once to access a huge collection of apps, games, movies, TV shows and more from Google Play™^{3,4}.

Just say what you want

Say "action movies" or "today's weather" and let Android™ TV do the work. Voice search helps you quickly find what you want. Simply speak into One-Flick remote or your compatible mobile phone⁴.

Google Cast™

With Google Cast™ built-in you can cast your favorite entertainment like HBO GO, Showtime Anytime, MLB.tv and more from your personal device to the big screen. You can cast from your Android phone or tablet, iPhone, iPad, Mac or Windows laptop or Chromebook⁴.

Your personalized TV

Personalized content recommendations from Google Play™, YouTube and supported apps appear automatically in your home screen³.

Stream PS3™ games directly to your TV⁵

Bring the immersive world of PlayStation® directly to your TV with PlayStation™ Now. Play select PlayStation® 3 games like you stream TV shows and movies – streamed directly to your TV. Connect a DUALSHOCK® 4 controller to your TV and choose from a variety of game rental periods⁵. Service available starting summer 2015.

So much to see in 4K

Hundreds of movies and TV shows are available from the top 4K service providers, including Netflix, Amazon Instant Video, YouTube, DirecTV video on demand and more³.

One-flick remote

A faster way to what you want. One click opens a shortcut menu to your favorite TV channels and online videos from Netflix®, YouTube™, Amazon Instant Video and more³ – all without disrupting what you're already watching.

Control your TV with your smartphone or tablet

Choose the Android TV remote application or Sony's TV SideView™ application. Either way, you'll have control with voice search, a keyboard and quick access buttons to the most popular apps⁴.

Clear movement

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.

Mounts flush to the wall

It doesn't get closer than this. Easier and faster than hanging a picture, the TV rests flush against the wall using the included wall mount system.

1. 3,840 x 2,160 pixels.

2. Upscaled, simulated and enhanced 4K images will vary based on source content.

3. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11n home network (802.11ac recommended). Network services, content, and the operating system and software of this Product may be subject to individual terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

4. Requires compatible devices connected to the same network. Google Cast requires mobile devices with Android 2.3 or higher, or iOS 6.0 or higher and Chromecast application. Google Play using Android TV Remote Control application requires Android 4.0 or higher; not available for iOS. Voice Search is available using the included remote control, Android TV Remote Control application with Android 4.0 or higher, or using Sony's TV SideView application available for Android 4.0.3 or higher or iOS 7.0 or higher.

5. PlayStation™ Now service requires DUALSHOCK®4 controller, sold separately, and 5Mbps Internet connection (5-12 Mbps recommended for the best quality experience). Additional purchases and registration required; service not available in all areas. See us.playstation.com/PlayStationNow for details.

6. Requires HDR compatible content from supported streaming services, such as Amazon Video.

SONY

XBR-65X930D

65" class (64.5" diag) HDR 4K Ultra HD TV

Enjoy 4K¹ and HDR entertainment on our X930D with Android™ TV³. Featuring three times the brightness range, enjoy breathtaking brightness and detailed black levels. With the ingenious Slim Backlight Drive™, this television offers brilliant picture quality in a super thin design.

Bullets

- The brilliant contrast, color and detail of 4K HDR
- Stunning contrast in a slim profile with Slim Backlight Drive™
- Three times the brightness range with X-tended Dynamic Range™ PRO²
- Colors come alive thanks to the TRILUMINOS® Display
- 4k magic added into every scene with the 4K Processor X1
- Android™ TV with Google Cast™, voice search & Play Store apps³
- Lifelike motion with Motionflow™ XR 960
- Mounts close to your wall like a picture frame
- Gold accents add elegance to the thin design
- Just say what you want with Voice Search³
- Send entertainment from your smartphone to you TV with Google Cast™³
- Enjoy thousands of apps from Google Play™³
- Home automation controlled directly from your TV

Features

Amazing contrast, incredibly slim

Our innovative Slim Backlight Drive™ cleverly guides light to where it's needed most on screen. You'll enjoy the best of both worlds: the most dramatic black levels and brightness in an ultra slim TV.

Uncover the detail with 4K HDR

A High Dynamic Range (HDR)-compatible TV will change the way you look at TV. Combined with 4K Ultra HD resolution¹, HDR video content delivers exceptional detail, color and contrast, with a far wider range of brightness than other video formats. The result is the most lifelike picture TVs have ever been able to create, with brilliant highlights and fine detail.

Capturing the full range of dark and light

By precisely balancing the light output across the screen, dimming some areas and boosting others, X-tended Dynamic Range™ PRO reveals a brightness range three times that of a conventional LED-backlit TV². When combined with an HDR signal you'll experience even greater brilliance in every scene as it increases the quality of HDR with finely-gradated bands of color and more vibrant hues.

More colors, depth and realism

Colors are as rich and vivid as nature's own thanks to the TRILUMINOS® Display with more shades of red, green and blue than ever before. You'll enjoy vibrant, authentic images that evoke the emotion in every scene. When combined with HDR video, TRILUMINOS® Display further increases the color depth for noticeably brighter and more realistic colors.

Adding 4K magic into every scene

SONY

The 4K Processor X1 ensures everything you watch - movies, sports, and streaming video – looks the best it possibly can. Color, contrast and clarity are all optimized based on what you are watching.

Every scene looks more realistic.

Discover a thrilling world of extraordinary clarity. Every single pixel is enhanced beautifully by our most powerful 4K picture processing technology ever. Individual parts of each scene are analyzed and matched with a special image database that independently addresses texture, contrast, color, and edges. The difference is clear with supremely lifelike detail, no matter what you're watching.

Hangs like a picture

With uncompromising pictures and a super slim design, it upgrades your living room and demands to be admired. Mount it close on the wall like a picture frame, while the flush finish with no raised bezel provides a near invisible edge. The gold inlay accent stripe adds a level of sophistication to your room.

Motionflow™ keeps the action smooth

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.

A world of possibilities

Find all the entertainment you can dream of, faster than ever. From movies and TV shows to thousands of apps, Sony's Android™ TV brings you everything in an instant³

Just say what you want

Spend less time browsing, and more time watching. Voice search on Android TV™ provides you with the power of Google search, allowing you to find content across different services without the hassle of time-consuming text entry³

Send to a bigger, better screen with Google Cast™

Send movies and music from your smartphone to your TV with Google Cast™. Use your phone as a remote control³

Your favorite apps, on your TV

Enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Amazon Video, Hulu, Pandora and more. Also, play your favorite Android™ games on the big screen³

Smart home automation

Beyond streaming content, Sony's Android™ TV platform allows Home Automation control directly from the TV, via the Logitech Harmony Hub. IoT (internet of things) devices such as lights, thermostats, Blu-ray™ players, security cameras other home entertainment devices can be controlled and automated via the push of a button on the TV's remote.

Find everything fast

The unobtrusive content bar quickly lets you find the movie, TV show or video you're looking for. Call up the Content bar and you can keep watching, while you scan through live TV, videos on demand, downloaded TV shows and much more. You can even customize the content bar to show you the content you go to most often first.

Stream PlayStation® games straight to your TV

Play selected PlayStation® 3 games directly through your TV – no console required. PlayStation™ Now brings streaming technology to the immersive world of PlayStation® gaming. Just pair a DUALSHOCK®4 controller with the TV and you're ready to play with the same speed and responsiveness as a console.

A masterpiece of design

Keep wires out of sight, thanks to a hidden cable panel structure, for a clean look.

1. 3,840 x 2,160 pixels.

2. Compared to standard LED HDTVs.

3. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11n home network (802.11n recommended). Network services, content, and the operating system and software of this Product may be subject to individual terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

4. Requires compatible devices connected to the same network. Google Cast requires mobile devices with Android 2.3 or higher, or iOS 6.0 or higher and Chromecast application. Google Play using Android TV Remote Control application requires Android 4.0 or higher; not available for iOS. Voice Search is available using the included remote control, Android TV Remote Control application with Android 4.0 or higher, or using Sony's TV SideView application available for Android 4.0.3 or higher or iOS 7.0 or higher.

5. PlayStation™ Now service requires DUALSHOCK®4 controller, sold separately, and 5Mbps Internet connection (5-12 Mbps recommended for the best quality experience). Additional purchases and registration required; service not available in all areas. See us.playstation.com/PlayStationNow for details.

6. Requires HDR compatible content from supported streaming services, such as Amazon Video.

7. Logitech Harmony Hub sold separately. Requires all compatible devices connected to the same network. Refer to Logitech for details on compatible devices. Compatible IP cameras require direct connection to the TV via Wi-Fi.

SONY

XBR-75X940D

75" class (74.5" diag) 4K HDR Ultra HD TV

The best combo of brightness and black levels. Enjoy 4K¹ and HDR entertainment on our X940D with Android™ TV³. With a full-array backlight and three times the dynamic range², this television offers brilliant color and dramatic contrast in a super thin design.

Bullets

- The brilliant contrast, color and detail of 4K HDR
- Full-array dimming and boosting with X-tended Dynamic Range™ PRO²
- Colors come alive thanks to the TRILUMINOS® Display
- 4k magic added into every scene with the 4K Processor X1
- Android™ TV with Google Cast™, voice search & Play Store apps³
- Lifelike motion with Motionflow™ XR 960
- Mounts close to your wall like a picture frame
- Gold accents add elegance to the thin design
- Leave no cable exposed with hidden cable routing
- Just say what you want with Voice Search³
- Send entertainment from your smartphone to your TV with Google Cast™³
- Enjoy thousands of apps from Google Play™³
- Home automation controlled directly from your TV

Features

Full-array boosting and dimming

With our full-array local dimming technology, you get the best picture ever in a stunningly slim design on our highest-end flagship model. Add in X-tended Dynamic Range™ PRO and enjoy three times the brightness range² of a conventional LED-backlit TV by precisely balancing the light output across the screen. When combined with HDR video, X-tended Dynamic Range PRO increases the quality of HDR so you experience even greater brilliance in every scene.

Uncover the detail with 4K HDR

A High Dynamic Range (HDR)-compatible TV will change the way you look at TV. Combined with 4K Ultra HD resolution¹, HDR video content delivers exceptional detail, color and contrast, with a far wider range of brightness than other video formats. The result is the most lifelike picture TVs have ever been able to create, with brilliant highlights and fine detail.

More colors, depth and realism

Colors are as rich and vivid as nature's own thanks to the TRILUMINOS® Display with more shades of red, green and blue than ever before. You'll enjoy vibrant, authentic images that evoke the emotion in every scene. When combined with HDR video, TRILUMINOS® Display further increases the color depth for noticeably brighter and more realistic colors.

Adding 4K magic into every scene

The 4K Processor X1 ensures everything you watch - movies, sports, and streaming video - looks the best it possibly can. Color, contrast and clarity are all optimized based on what you are watching.

Every scene looks more realistic.

SONY

Discover a thrilling world of extraordinary clarity. Every single pixel is enhanced beautifully by our most powerful 4K picture processing technology ever. Individual parts of each scene are analyzed and matched with a special image database that independently addresses texture, contrast, color, and edges. The difference is clear with supremely lifelike detail, no matter what you're watching.

Hangs like a picture

With uncompromising pictures and a super slim design, it upgrades your living room and demands to be admired. Mount it close on the wall like a picture frame, while the flush finish with no raised bezel provides a near invisible edge. The gold inlay accent stripe adds a level of sophistication to your room.

Motionflow™ keeps the action smooth

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.

A world of possibilities

Find all the entertainment you can dream of, faster than ever. From movies and TV shows to thousands of apps, Sony's Android™ TV brings you everything in an instant³

Just say what you want

Spend less time browsing, and more time watching. Voice search on Android TV™ provides you with the power of Google search in 42 languages, allowing you to find content across different services without the hassle of time-consuming text entry³

Send to a bigger, better screen with Google Cast™

Send movies and music from your smartphone to your TV with Google Cast™. Use your phone as a remote control³

All the apps you love

Enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Amazon Video, Hulu, Pandora and more. Also, play your favorite Android games on the big screen³.

Smart home automation

Beyond streaming content, Sony's Android TV platform allows Home Automation control directly from the TV, via the Logitech Harmony Hub. IoT (internet of things) devices such as lights, thermostats, Blu-ray™ players, security cameras other home entertainment devices can be controlled and automated via the push of a button on the TV's remote.

Find everything fast

The unobtrusive content bar quickly lets you find the movie, TV show or video you're looking for. Call up the Content bar and you can keep watching, while you scan through live TV, videos on demand, downloaded TV shows and much more. You can even customize the content bar to show you the content you go to most often first.

Stream PlayStation® games straight to your TV

Play selected PlayStation® 3 games directly through your TV – no console required. PlayStation™ Now brings streaming technology to the immersive world of PlayStation® gaming. Just pair a DUALSHOCK®4 controller with the TV and you're ready to play with the same speed and responsiveness as a console.

1. 3,840 x 2,160 pixels.

2. Compared to standard LED HDTVs.

3. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11 home network (802.11n recommended). Network services, content, and the operating system and software of this Product may be subject to individual terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

4. Requires compatible devices connected to the same network. Google Cast requires mobile devices with Android 2.3 or higher, or iOS 6.0 or higher and Chromecast application. Google Play using Android TV Remote Control application requires Android 4.0 or higher; not available for iOS. Voice Search is available using the included remote control, Android TV Remote Control application with Android 4.0 or higher, or using Sony's TV SideView application available for Android 4.0.3 or higher or iOS 7.0 or higher.

5. PlayStation™ Now service requires DUALSHOCK®4 controller, sold separately, and 5Mbps Internet connection (5-12 Mbps recommended for the best quality experience). Additional purchases and registration required; service not available in all areas. See us.playstation.com/PlayStationNow for details.

6. Requires HDR compatible content from supported streaming services, such as Amazon Video.

7. Logitech Harmony Hub sold separately. Requires all compatible devices connected to the same network. Refer to Logitech for details on compatible devices. Compatible IP cameras require direct connection to the TV via Wi-Fi.

SONY

XBR-85X850D

85" class (84.5" diag) 4K HDR Ultra HDTV

Go beyond what you've seen before on our X850D with Android™ TV. Enjoy remarkable 4K¹ HDR clarity, color and contrast, enhanced by the brilliant color of the TRILUMINOS® display. With a sophisticated silver accent, the beautifully thin design looks as great as it entertains.

Bullets

- The brilliant contrast, color and detail of 4K¹ HDR
- Colors come alive thanks to the TRILUMINOS® Display
- 4K magic added into every scene with the 4K Processor X1
- Lifelike motion with Motionflow™ XR 960
- Silver accents add elegance to the thin design
- Android™ TV with Google Cast™, voice search & Play Store apps²³
- Just say what you want with Voice Search²³
- Send entertainment from your smartphone to your TV with Google Cast™²³
- Enjoy thousands of apps from Google Play™²³
- Home automation controlled directly from your TV

Features

Uncover the detail with 4K HDR

High Dynamic Range (HDR) will change the way you look at TV. Combined with 4K Ultra HD resolution¹, HDR video content delivers exceptional detail, color and contrast, with a far wider range of brightness than other video formats. The result is the most lifelike picture TVs have ever been able to create, with brilliant highlights and fine detail.

More color, depth and realism.

Colors are as rich and vivid as nature's own thanks to the TRILUMINOS® Display with more shades of red, green and blue than ever before. You'll enjoy vibrant, authentic images that evoke the emotion in every scene. When combined with HDR video, TRILUMINOS® Display further increases the color depth for noticeably brighter and more realistic colors.

Adding 4K magic into every scene

The 4K Processor X1 ensures everything you watch - movies, sports, and streaming video - looks the best it possibly can. Color, contrast and clarity are all optimized based on what you are watching.

Motionflow™ keeps the action smooth

TV that keeps up with real life. Sony's refresh rate technology (Motionflow™ XR 960) allows fast moving action sequences in sports and movies to be seen with lifelike clarity.

Every scene looks more realistic.

Discover a thrilling world of extraordinary clarity. Every single pixel is enhanced beautifully by our most powerful 4K picture processing technology ever. Individual parts of each scene are analyzed and matched with a special image database that independently addresses texture, contrast, color, and edges. The difference is clear with supremely lifelike detail, no matter what you're watching.

Dramatic brightness and black levels.

SONY

Thanks to Dynamic Contrast Enhancer, experience more life, more texture and more energy in every scene with brighter highlights, deeper blacks, and more natural tonal gradation.

Made to match your space

The thin and beautiful design with a slim bezel with silver inlay takes cues from interior design, allowing it to maintain the harmony of your living room while still making a statement.

A world of possibilities

Find all the entertainment you can dream of, faster than ever. From movies and TV shows to thousands of apps, Sony's Android™ TV brings you everything in an instant²³.

Just say what you want

Spend less time browsing, and more time watching. Voice search on Android TV™ provides you with the power of Google search, allowing you to find content across different services without the hassle of time-consuming text entry²³.

Send to a bigger, better screen with Google Cast™

Send movies and music from your smartphone to your TV with Google Cast™. Use your phone as a remote control²³.

Your favorite apps, on your TV

Enjoy a huge range of apps from Google Play™, including YouTube™, Netflix, Amazon Video, Hulu, Pandora and more. Also, play your favorite Android games on the big screen²³.

Smart home automation

Beyond streaming content, Sony's Android™ TV platform allows Home Automation control directly from the TV, via the Logitech Harmony Hub. IoT (internet of things) devices such as lights, thermostats, Blu-ray™ players, security cameras other home entertainment devices can be controlled and automated via the push of a button on the TV's remote.

Find everything fast

The unobtrusive content bar quickly lets you find the movie, TV show or video you're looking for. Call up the Content bar and you can keep watching, while you scan through live TV, videos on demand, downloaded TV shows and much more. You can even customize the content bar to show you the content you go to most often first.

Stream PlayStation® games straight to your TV

Play selected PlayStation® 3 games directly through your TV- no console required. PlayStation™ Now brings streaming technology to the immersive world of PlayStation® gaming. Just pair a DUALSHOCK®4 controller with the TV and you're ready to play with the same speed and responsiveness as a console.

A masterpiece of design

Keep wires out of sight, thanks to a hidden cable panel structure, for a clean look.

Optional Accessories

Optional Accessories	Wireless Subwoofer (SWF-BR100)
----------------------	--------------------------------

1. 3,840 x 2,160 pixels.

2. Broadband speed of at least 2.5 Mbps recommended for SD services, 10 Mbps for HD streaming or 4K downloads, 20 Mbps for 4K Ultra HD streaming. Wireless connectivity requires 802.11 home network (802.11n recommended). Network services, content, and the operating system and software of this Product may be subject to individual terms and conditions and changed, interrupted or discontinued at any time and may require fees, registration and credit card information.

3. Requires compatible devices connected to the same network. Google Cast requires mobile devices with Android 2.3 or higher, or iOS 6.0 or higher and Chromecast application. Google Play using Android TV Remote Control application requires Android 4.0 or higher; not available for iOS. Voice Search is available using the included remote control, Android TV Remote Control application with Android 4.0 or higher, or using Sony's TV SideView application available for Android 4.0.3 or higher or iOS 7.0 or higher.

4. PlayStation™ Now service requires DUALSHOCK®4 controller, sold separately, and 5Mbps Internet connection (5-12 Mbps recommended for the best quality experience). Additional purchases and registration required; service not available in all areas. See us.playstation.com/PlayStationNow for details.

5. Requires HDR compatible content from supported streaming services, such as Amazon Video.

6. Logitech Harmony Hub sold separately. Requires all compatible devices connected to the same network. Refer to Logitech for details on compatible devices. Compatible IP cameras require direct connection to the TV via Wi-Fi.
